Average sampled score	Los Angeles Dodgers 4.6 - Atlanta Braves 4.1
Sampled total	Mean 8.7; middle 80% of sampled totals 4-15
Run details	100,000 completed trials seed 122144624 Raw tied-score scenarios 10.1%; assumed 50/50 winner split

Historical inputs

Los Angeles Dodgers	162 completed regular-season games; 81 at this venue role. Last 5: 3 wins, scored 14, conceded 13. Latest input 2026-09-27.
Atlanta Braves	162 completed regular-season games; 81 at this venue role. Last 5: 2 wins, scored 20, conceded 20. Latest input 2026-09-27.

Matchup takeaway

Los Angeles Dodgers has the higher scenario share (53.1%), but this is close to even. The model has no validated predictive accuracy and these figures are not betting edges. These are regular-season scoring scenarios transferred to postseason, without starting-pitcher or bullpen adjustments.

Method, limits & sources

Venue scoring/conceding samples estimate score rates and variation. Independent negative-binomial draws (Poisson where variance is lower) produce score scenarios. Historical overtime/shootout scores are included; this is not a regulation-goal model. No player, injury, rest, opponent-strength or weather adjustment.

Monte Carlo sampling error about +/- 0.31 percentage points (95%). This measures repeat-run noise ONLY, not real-world confidence or model accuracy. Player props and market edges unavailable.
